Drinking Water Solutions

Redefining Excellence in Every Detail — **GUNG DAI**

## **GD MAX**

ACF AG+ Filter

### **MATERIALS**

Non-woven Protective Layer  
Activated Carbon Filter  
KDF-like Effect  
Bacteria Growth Inhibition Formula

### **FEATURES**

Water Odors Removal  
Partial Chlorine and Chemicals Removal  
Heavy Metals (Lead) Removal  
Growth Inhibition of Bacteria

The raw materials are manufactured by GE-Techno in Japan, and filters are 100% made in Taiwan, meet both Japanese MHLW's 370 document test and U.S. FDA CFR standards. Water quality have been qualified by SGS

## **GD PRO**

Antibacterial PP Fiber Filter

### **MATERIALS**

Antibacterial AG+ Formula  
PP Fiber  
Antibacterial Filter Material

### **FEATURES**

Filtration Up to 1 Micron  
Visible SS & Sediments Removal  
Growth Inhibition of Bacteria

The filters are 100% Taiwan-made, and the water quality is SGS qualified.

## **GD RESIN**

Anti-scale Resin Filter

### **MATERIALS**

Food Grade Ion Exchange Resin

### **FEATURES**

Preventing Scale Buildup  
Softening Drink Water

Food grade raw material and the filters are 100% made in Taiwan.
